

PHARMACY UPDATES

Locumate Newsletter

STAY UP TO DATE WITH LOCUMATE!

As we reflect on the past year, it's clear that we have faced challenges, particularly with the impact of Covid and then the announcement of the 60-day dispensing. Through it all, your commitment, hard work, and ongoing support have been nothing short of amazing.

We want to express our heartfelt gratitude for allowing us to support you, whether as a locum or a pharmacy in need. Getting to know some of you has been such a highlight, and we are so happy to have you on this Locumate journey with us.

Please remember, we are always here to support you. Whether you have questions, concerns, or just want to chat, our door is always open.

As we approach the holiday season, we want to wish you a Merry Christmas filled with joy and time spent with loved ones, and a very Happy New Year!

Industry Update

There has been great emphasis on technology in 2023. From medication management systems, dispensary automation and digital marketing tools, the industry has started to adopt tech at a greater scale.

Guild is currently negotiating the 8CPA, more details to follow.

Sigma & CWH have entered into a merger announced in early December.

Pharmacy Practice

Locumate has an in-built chat functionality to allow for greater transparency in communicating with your next locum. To allow for efficiency and a seamless workflow, ensure that you connect with your locum prior to the shift to confirm times, answer any queries and introduce yourselves!

Timesheets need to be approved within 24 hours after the locum has submitted their timesheets. By approving the timesheet, you will be able to confirm hours worked (or raise a dispute if there was a discrepancy). After the approval you will also be able to leave feedback ratings on the locum.

Some stats!

There are currently **over 1500 locums** on the platform!

Our quickest time to fill a shift was less than **30 seconds!**

We have saved over \$1M in premium agency fees since launching in 2022.

A bit of a laugh..

A doctor is giving a talk at a symposium. Like any good public speaker, he wrote his speech out on notecards.

Unfortunately, when he gets up to the podium, he finds that he just can't read his notes.

So, he says to the audience, "Is there a pharmacist in the house?"

New Product Features

LOCUMS WITHOUT DISPLAY PICTURES

If a locum does not have a display picture set to their profile, you will see a blue default icon.

This will indicate that a locum has been booked in for a shift. You can click on their profile for more details if required (detailed below).

SHIFTS WITHOUT A LOCUM ASSIGNED

If a shift is yet to be filled, you will now see a red exclamation icon as shown in the image.

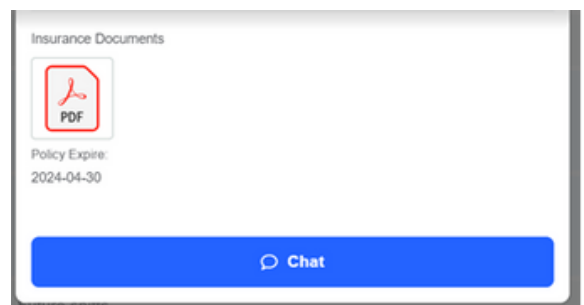

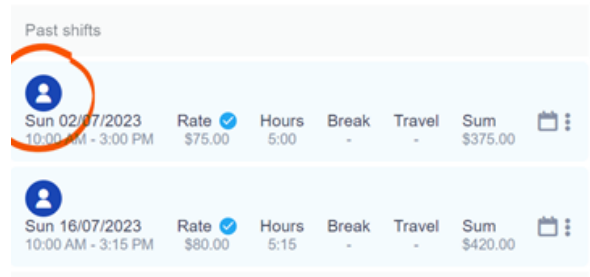

This is not an error message, but simply the shift has not been filled. As mentioned above, once filled you will see the profile picture or a blue profile icon.

VIEWING A LOCUM'S PROFILE

Select the blue icon or profile picture on the assigned shift.

A pop will appear with the locum's AHPRA, Insurance details, Professional Certification and Resume (if supplied).

You can also directly access the chat function to open up communication with the locum.
